

Prairie Sky School

Digital Citizenship plan 2023-2024

Relevant contextual information about your school and School Development Plan:

- Prairie Sky School is a K-9 school located in the community of Skyview Ranch in Calgary’s Northeast
- This will be the first complete year where students are in Prairie Sky and not in four sites. There is greater access to technology now, including increased access to chromebooks, laptops, iPads, computer lab, and computer peripheral tech.

Relevant evidence and data that informs your Digital Citizenship Plan:

School Digital Citizenship Plan						Progress		
Long Term Goal (e.g. spanning 8-10 months)	Competency (may be chosen from the CBE DC Competencies)	Short Term Goals (in support of the long term goal)	Outcomes	Activities & Resources	Measures	November	January	June
Long term goal #1 Learners will develop skills using digital tools to support and enhance learning	Involved I leverage digital tools to learn, express my creativity and collaborate with others	Students will understand how to use google tools (slides, docs, forms, classroom)	Students will use google digital tools to enhance their creativity, collaboration, and academic tasks.	Teacher will familiarize themselves with digital tools. Tutorials on the use of digital tools Students will regularly use digital tools	Increased student use of digital tools. Students can choose an appropriate digital tool based on their learning needs			
		Students will understand how to use features inside of Brightspace by D2L	Students will become familiar with Brightspace by D2L features to enhance	Teacher will familiarize themselves with digital tools. Students will regularly use brightspace by D2L to access content and submit assignments.	Students are using brightspace by D2L on a regular basis to access learning materials and engage in learning			

Long term goal #2 Learners will use technology in a responsible manner that enhances their learning	Responsible I understand that anything I access, produce and post contributes to my digital presence and I understand how to make responsible decisions in the digital economy	Students and families will read and sign the acceptable use policy	Students will understand the expectations of appropriate use of technology and online presence at school.	Acceptable use policy sent home	Acceptable use policies will be tracked. Students must sign before accessing technology.			
Long term goal #3 Learners will balance their use of technology in a way that supports positive mental, emotional, and physical wellbeing, while enriching their learning experience.	Balanced I balance time online and offline to promote positive mental, emotional and physical well-being & I understand appropriate times and situations to use technology	Students will be aware of the time spent using technology during the day and for what purpose	Students will monitor their screen and tech time, and be able to communicate how technology affects their mood, school life, and friendships.	Phys Ed and wellness lessons focused on wellbeing related to technology.	Staff survey on how often they address balanced digital citizenship in their daily lessons.			
		Students will use technology to enhance and enrich their school work when appropriate.	Students will make sound technology choices which includes opting to not use technology when it is of little assistance or won't add value to their learning.	Students will have opportunities to make choices in relation to their learning. As well as opportunities to reflect how technology helped or hindered their progress.	Is there a more balanced technology approach to learning at Prairie Sky? Is technology used to enhance learning? (Student survey)
